UIPM PRESIDENT'S WELCOME

Dear Media Representatives,
Dear UIPM Family,

As we focus our minds on the upcoming Olympic and Paralympic Games Paris 2024, we must first look back to 2022 and the extraordinary transformation that took place in our sport and the Olympic Movement in general.

The war in Ukraine continues to test the limits of the Olympic Movement, examining our ideals and our values. As we work hard to find ways of responding to this tragic situation, it is these ancient ideals and values that inform our course of action. UIPM has worked alongside the IOC and all other International Federations to offer support not only for Ukrainian athletes, but also for the people of Ukraine. And we will continue to do so. Last year was groundbreaking for Modern Pentathlon and the UIPM Sports global family. UIPM undertook an exhaustive, transparent process to reform our sport and futureproof it for the next generations of athletes. The addition of Obstacle is an exceptional opportunity to increase the accessibility of Modern Pentathlon at the roots and widen its global appeal and popularity.

Paris 2024 will be a remarkable Games for many reasons, beginning with the 100th anniversary of the Paris 1924 Olympic Games. It will be the first Summer Olympics built around the reforms of Olympic Agenda 2020+5. Riding will be included in the Olympic Modern Pentathlon for the last time.

As the only sport created by Baron Pierre de Coubertin, founder of the Modern Olympic Games, we hold a unique position in Olympic heritage and tradition. But, as Coubertin himself envisaged, the Games should not focus on the past; they should look forward and always evolve to stay relevant. I am proud to say our community has done that by embracing the most profound transformation of any sport in Olympic history.

The value that Obstacle brings to our sport is clear: hundreds of millions of fans and participants worldwide, thousands of annual events on a global basis, and a sport that is easy to access with minimal barriers of entry for young athletes around the world. But Obstacle will also strengthen the Olympic Games beyond Modern Pentathlon. Its TV-friendly format and highly digitized, younger core audience base will bring millions of new, passionate fans to the greatest sporting event on earth. This makes the entire Olympic Movement stronger and more relevant.

In 2023, Obstacle will be integrated into Modern Pentathlon during the UIPM Junior and Youth World Championships. We understand that this is a major transition for the athletes, coaches, judges and organisers who underpin our sport. It is also a necessary change if we are to remain on the Olympic Programme in 2028 and beyond. We are focused on the athletes of the future because we must be.

The phrase “necessity is the mother of invention” sums up our position as a sport and the direction where we are going. The IOC, under the supportive leadership and guidance of President Dr Thomas Bach, have been strong partners for UIPM in addressing this necessary change. We are grateful for their counsel and continued encouragement as we move to embrace our collective future together.

When I look back on the historic year of 2022, and how far we have come as a Union and as a sport, I am very optimistic about Modern Pentathlon’s future. The world today is more challenging than at any point in our lifetimes. People around the world yearn for connection, for understanding and for solace. Sport has the power to provide everyone with a sense of peace, belonging and unity.

I hope you enjoy the 2023 season and the moments of joy that only sport can bring. I also hope you appreciate the opportunity to be part of Olympic history as the only sport created especially for the Olympic Games transforms itself, ensuring athletes can experience the ultimate sporting test for another hundred years to come.

Sincerely yours,
Dr Klaus Schormann

MODERN PENTATHLON TIMELINE

Modern Pentathlon is a unique multi-discipline sport created by the founder of the modern Olympic movement, Baron Pierre de Coubertin, that combines mental and physical challenge to find the most complete athlete. It evolved from the Ancient Pentathlon and was introduced at the Stockholm 1912 Olympic Games. It

was Coubertin's belief that the event would "test a man's moral qualities as much as his physical resources and skills, producing thereby the ideal, complete athlete". Now gender-equal, the sport has evolved considerably, with modern concepts and technology improving the sport and the spectator experience.

HIGHLIGHTS, HEROES & RECORDS

1950s
MEN

UIPM was formed in 1948, during the London Olympics where Wille Grut (SWE) won gold to complete an unusual double (he had also won silver in the Winter Pentathlon demonstration event in the Olympic Winter Games in St Moritz, France). Sweden continued to dominate, with several world titles and consecutive Olympic gold medals for Lars Hall in 1952 and 1956. Hall was the first pentathlete to win individual Olympic and world gold. But all the time athletes from the USSR, Konstantin Salnikov and especially Igor Novikov, were starting to get stronger...

1960s
MEN

Former Soviet Union (URSS) and Hungary were the dominant nations, winning all team gold medals at Olympic Games and World Championships. Igor Novikov, and then especially Andras Balczo (winning individual Olympic and several individual World Championships gold) from Hungary were the outstanding athletes, with Ferenc Török and Ferenc Nemeth winning Olympic gold as well.

1970s
MEN

After Andras Balczo was crowned as Olympic champion in 1972, he was succeeded by Janusz Peciak from Poland in 1976. He became the best athlete of this era, together with Pavel Lednev, four times individual world champion from the USSR. Poland was the only nation to break the USSR and Hungarian phalanx, by clinching several World Championships team titles. The only other athlete winning individual gold at a World Championships during this time was Bob Nieman from USA in 1979.

1980s
MEN

Whereas Poland (with Peciak and his teammates), Soviet Union (with Anatoli Starostin, World Championships and Olympic Champion) and Hungary (with a new, young team) kept winning, Italy became a strong nation, winning team gold in 1986, Olympic medals and individual World Championships titles with Daniele Masala and Carlo Massullo. By the end of the decade, all of the new Hungarian team comprised of Attila Mizser, Laszlo Fabian and Janos Martinek had won individual gold at either World Championships or Olympic Games and several team gold medals. Starostin, Peciak and Masala all won individual Olympic gold and individual World Championships gold.

1980s
WOMEN

In the early years of women's Modern Pentathlon the dominant athletes were Irina Kiseleva and Barbara Kotowska (USSR) and Dorota Idzi (POL). But Sabine Krapf (GER), Eva Fjellerup (DAN) and the British team, well represented by Wendy Norman, and the French started to compete strongly. The first Women's World Championships took place in 1981 (individual + relay). Great Britain had a golden generation with Kathy Taylor and Sarah Parker winning a lot of team events.

1990s
MEN

Poland had strong individual athletes with Arkadiusz Skrzypaszek winning individual gold at the Olympics (1992) and World Championships (1991). Besides Hungary, Poland and USSR being strong teams the French became a strong Pentathlon nation. It started with Joel Bouzou winning individual World Championships gold in 1987, followed by team gold in 1994, and finally Sebastian Deleigne becoming a double individual world champion (1997/1998). The Russian athlete Dmitry Svatkovsky also won consecutive individual World Championships gold in 1994 and 1995.

1990s
WOMEN

Whereas Poland remained the dominant team and Italy was an emerging force, Eva Fjellerup from Denmark was the woman to catch as she won individual World Championships gold four times. Hungary, Germany, Italy, Russia and Belarus had very successful women athletes during this time as well.

2000s
MEN

Dmitry Svatkovsky completed his medal collection by winning individual Olympic gold in 2000 and leading a new Russian generation to several world titles. Andrey Moiseev became double Olympic champion (2004 and 2008). Besides established nations, new countries, such as Lithuania (Andrejus Zadneprovskis, Edvinas Krungolcas), Czech Republic (Michal Sedlecký) and also Germany (Eric Walther) had athletes winning World Championships and also Olympic medals. It was also the decade when Asian countries, led by South Korea and China, started to become strong contenders, especially with Zhenhua Qian winning individual World Championships gold in 2005.

2000s
WOMEN

Great Britain grew in strength, winning team and individual world titles and also gold and bronze at the first Olympic Games to feature women's pentathlon in 2000. Stephanie Cook (GBR), Zsuzsanna Vörös from Hungary and Lena Schoeneborn of Germany all won individual gold at World Championships and the Olympic Games. Amélie Caze from France enjoyed a remarkable period of dominance, winning the World Championships three times, while Schoeneborn (GER) became the youngest of the first three women's Olympic champions when she claimed gold in Beijing 2008 aged just 22.

2010s
MEN

At London 2012, David Svoboda emerged to take gold for the Czech Republic for the first time. Cao Zhongrong (silver) won China's first Olympic medal while 2009 world champion Adam Marosi (HUN) took bronze. In Rio de Janeiro four years later, Alexander Lesun (RUS) became champion after a strong and unflappable performance that gave no chance to the rest of the field. Pavlo Tymoshchenko (UKR) won silver and Ismael Hernandez Uscanga (MEX) won a sprint to the line for bronze.

2010s
WOMEN

Following the success of Schoeneborn (GER) in Beijing, Laura Asadauskaite from Lithuania nailed the victory in London 2012 with Samantha Murray (GBR, silver) and Yane Marques (BRA, bronze) joining her on the podium. However, the 2008 and 2012 champions were both eliminated during Riding at Rio 2016 and Chloe Esposito (AUS) engineered a stunning triumph. She was joined on the podium by Elodie Couvel (FRA, silver) and Oktawia Nowacka (POL, bronze).

THE LEGACY OF COUBERTIN

Not long after the dawn of the 20th century, a French visionary named Baron Pierre de Coubertin had the idea to create a new sport linked to the philosophy of Pentathlon at the ancient Olympic Games - especially for the Modern Olympic Games he had recently established.

The Modern Pentathlon soon became celebrated as the ultimate examination of mind and body in Olympic sport. Coubertin's concept was introduced to the world at the Olympic Summer Games Stockholm 1912, and to this day, the influence of Coubertin is visible and profound.

Right across the UIPM Sports movement, the values of our founder are conspicuous – honesty and fair play, tenacity and courage, honour and sportsmanship – and in 2018

UIPM decided to establish a special day that would mark and celebrate Coubertin's legacy each year. The 1st Pierre de Coubertin Pentathlon Day was held on September 9, 2018. A special ceremony was arranged in Mexico City (MEX) during the UIPM Pentathlon World Championships and the party was extended to all corners of the world.

In 2022 the 5th annual Pierre de Coubertin Pentathlon Day was marked by another hugely successful social media #High5 campaign where leading athletes in the sport were encouraged to share photos of themselves doing a #High5 in a show of solidarity with the five disciplines of their great sport – and its visionary founder.
