PRESIDENT'S FOREWORD

Dear friends,

On behalf of the global UIPM community I hope you will enjoy this special publication, designed to provide photographic highlights of 2019.

It was another exciting and progressive year for UIPM Sports. With the Tokyo 2020 Olympic Games appearing closer on the horizon, the world's leading pentathletes worked harder than ever and competed with great determination to secure their Olympic qualification. But our movement is looking not only at today but also at tomorrow. Across all continents, it was wonderful to see our development sports flourish, attracting new participants to our global Modern Pentathlon family.

All of us together are part of a bigger family within Olympic sport. We celebrated 125 years of the Olympic movement in 2019, and we had many wonderful moments including visits to the new Olympic House in Lausanne (SUI) – a true symbol of innovation.

In Tokyo (JPN) and Budapest (HUN), our community came together for two competitions that will live long in the memory.

The UIPM 2019 Pentathlon World Cup Final was one of the first Olympic Test Events for Tokyo 2020 and it gave our athletes the opportunity to touch the Olympic Games environment in this

captivating city. We were honoured to be visited by Tzunekazu Takeda, the outgoing President of the Japanese Olympic Committee and son of the former President of the Modern Pentathlon Association of Japan, Tzuneyoshi Takeda.

This competition was the culmination of a memorable Pentathlon World Cup series, which is thriving more than ever thanks to a good understanding with established organisers.

The importance of tradition in hosting was underlined in Budapest, where we returned once again for the last World Championships of the decade but this time with a difference. We merged our UIPM Pentathlon and Laser Run World Championships for the first time ... and with great success!

UIPM's Honorary President, HSH Prince Albert II of Monaco, joined us for this unique competition, which also enabled us to officially inaugurate His Highness into the UIPM Hall of Fame during the UIPM Annual Awards Gala Dinner, and together we celebrated the 2nd UIPM Pierre de Coubertin Pentathlon Day along with Alexandra Navacelle de Coubertin, Chair of the Pierre de Coubertin Family Foundation.

Of course, the highlight on the field of play – Budapest became the second city to create a Pentathlon Arena for the World Championships after Mexico City (MEX) in 2018 – was the dramatic racing and the many world titles and medals secured by our athletes across the individual and Mixed Relay categories.

At senior level, we saw another four athletes secure Olympic qualification quota places on behalf of their nations, an achievement replicated by other athletes in Cairo (EGY) during the African Championships, Lima (PER) during the Pan American Games, Bath (GBR) during the European Championships and Wuhan (CHN) during the Asia/Oceania Championships.

As a multi-sport we belong in multi-sport Games, which enable us to raise our profile and allow our athletes to feel part of a wider movement, and it was terrific in Lima to have all five of our medal events on the programme, with the Mixed Relay as a special highlight. The Military World Games in Wuhan (CHN) was another highlight of the Pentathlon season – I can tell you that this competition was organised at a high level similar to the Olympic Games! It's very important for UIPM to maintain its traditional of military association and have a strong partnership with the governing body CISM.

Our UIPM Sports Pyramid is stronger with ever with robust foundations supporting Modern Pentathlon at the top. At the base of the structure, our development multi-sports had another year of remarkable progress with close to 100 Laser Run events organised around the world. In September Laser Run featured as a showcase sport at the 1st World Urban Games in Budapest, and in December in Manilla (PHL) our sports became part of the Southeast Asian Games for the first time (Triathle and Laser Run).

These sports are a vital pillar of our development programme, giving participants from all different communities and socio-economic backgrounds an entry point into the Pentathlon movement. We continued to rapidly grow our National Federation membership in 2019 and many new members organised their first competitions, not to forget the many courses run in all continents by our UIPM Coaching and Judging Certification Programmes.

At UIPM we promote sport as a vehicle for education, peace, democracy, tolerance and humanity. Sport encourages healthy lifestyles and we do all we can to keep it clean and protect it from doping and any other corruptive elements. All the time we are continuing to look to the future, building close sport-political ties that will help to make our sports more sustainable, and we had many very important meetings as part of this function in 2019.

Together with World Taekwondo we hosted a special dinner for ASOIF members and VIP guests during SportAccord 2019 in Brisbane (AUS), where we met with IOC Members and other International Federations and representatives of the Paris 2024 Olympic Games Organising Committee.

Looking to Paris, we created a New Pentathlon Working Group to examine changes to the presentation of Modern Pentathlon, which sits above the New Tetrathlon Working Group whose work was endorsed by the UIPM Executive Board in September 2019. This means we will have a New Tetrathlon format for the first Olympic Games to be held in Africa, in Senegal (DAK) in 2022, and this is thanks to the efforts of many people involved in the five test events arranged.

It was truly an unforgettable year of progress for our Union, as you can see throughout this book. I hope you enjoy it and that you are looking forward to next year as much as we are!

Dr Klaus Schormann
UIPM President

ABOUT UIPM

The Union Internationale de Pentathlon Moderne is the world governing body of the Olympic sport of Modern Pentathlon and 5 other multi-discipline sports – Tetrathlon, Triathle, Biathle, World Schools Biathlon and Laser Run. The UIPM has 119 National Federation members.

Over 100 years of history.

One of the 25 core Olympic sports, since 1912.

In 1948, Tor Wibom was elected the first UIPM President, in Sandhurst, GBR.

The Headquarters for the UIPM are located in the Principality of Monaco. The office has been in Monaco since 11 July 1997 and managed by Secretary General, Mrs. Shiny Fang.

Vision

To create a global environment that enables people of all ages, genders and religions from all countries to participate in multidisciplinary sport, testing their bodies and minds to the limit and aspiring to compete at the Olympic Games, Paralympic Games or whatever competition represents the pinnacle of their ability.

Mission

To preserve and build on the legacy of Baron Pierre de Coubertin, who founded the Modern Olympic Games and then created a sport especially for the Games that he hoped would represent the apex of athletic achievement. To protect, promote and develop Modern Pentathlon, a core sport of the Summer Olympic Games since Stockholm 1912 around the world!
