Fencing

Safety Regulations, Masks

Masks: On several occasions masks have fallen off athletes' heads during bouts. Technical solutions and specifications have been established. FIE is going to introduce the new system, where the mask must contain two different safety systems at the rear of the mask, with the two ends of the straps of the systems firmly affixed to the two sides of the mask during 2018.

The schedule for the replacement process for UIPM competitions will be proposed in detail at the 2018 congress for adopting UIPM regulations 2019.

Riding

Riding ability of athletes

Following the announcement in 2017 UIPM Technical Delegates have stopped athletes with non-satisfying riding abilities or those who put themselves and/ or their horse in dangerous situations. As a result, UIPM issued warning letters and suspension if reoccurring.

In order to improve the situation, further measurements and decisions were taken. **Based on the new Rules an athlete can be stopped at any time during the warm up or during the course.** The Technical Committee decided to enforce those rules very strictly at all level of competitions in 2018.

4.4.2

A pentathlete can be eliminated by the Technical Delegate or Riding Director with agreement of Technical Delegate if the pentathlete is unable to control the horse, shows dangerous riding or non-sufficient riding ability.

4.4.8

The Jury and the Technical Delegate acting together have the right to eliminate the pentathlete, if he (and/or the horse) is unable to perform the course, is unable to control the horse, shows dangerous riding or non-sufficient riding ability.

Further the already started processes will continue to address main concerns, such as:

- Riding ability of certain athletes not being good enough
- Level/ suitability of provided and selected horses
- Increase level of course design to test riders
- Public perception of MP Riding regarding animal welfare

Athletes with showing non-sufficient riding abilities will be reported.

NFs have to:

- Upload riding certificate mandatory if applying for UIPM license incl. riding
- Providing video footage and proof of ability for athletes having received a warning or faced temporary suspension. A revalidation can be considered after period of training and showing necessary progress.

National Federations and coaches are reminded to take their responsibility serious. It is necessary to invest sufficiently in athletes riding education and training. Further it is important that nations only have athletes competing at higher level competitions with the necessary riding ability and not to put their athletes at risk at any point.

4

Laser-Run

The below rules clarification regarding starting the running leg too early has been written into the rules, after being introduced during 2017 season.

Reminder starting too early

Starting the running leg before the shooting time has expired without having successfully completed the shooting series ("5 green lights") will be penalised as following (Rule 5.6.2 and 5.6.3):

- 4 green lights → **Elimination** (amendment to current rule, UIPM TC decision)
- 3 (or less) green lights → **Disqualification** (considered as blatant attempt to start too early)

Reminder Pistol/ Equipment

By using UIPM homologated targets (standard 2016 for LPT or HTM) and new pistol models (or updated older versions) the overall situation improved again. Main issues occasionally faced: Service management of products. **Athletes are reminded to have not only a laser pistol of good quality, but a pistol in good condition and well serviced/ updated (laser power, beam size and intensity profile)** – in close contact with providers - and according to current rules. **Any pistol not having been updated since 2015 should be checked by the respective provider.**

5

Clothing

Athletes and teams should pay attention to the following rules:

General clothing (Rule 1.22.2)

- Pentathletes must wear clothing and equipment as specified in the Rules for each event.
- Officials must be dressed properly, at a minimum by the National Federation's tracksuit.

Running clothing (Rule 5.7.i)

A pentathlete must wear athletic clothing. In category A competitions, pentathletes from the same country must wear matching uniform.

This means, the clothing must be of same brand, type and color. Running shorts/ tights must be of same color, but can differ slightly in style (e.g. women's/ men's).

UIPM successfully launched the new Judges Certification Program (JCP). The first courses have been conducted according to the new system and including the e-learning platform prior to the courses.

Currently UIPM is in a transition phase to certify not only new judges, but also to re-validate and migrate existing international judges to the new system. Along with this an assessment process of international judges will be introduced. The introduction of JCP and standardization will contribute to increased quality level of Technical Officials.
