Biathle (Run-Swim-Run) and Triathle (Swim-Run-Shoot) have been pillars of the global growth of UIPM Sports and 315 athletes from 25 countries took part this week with age categories ranging from Under-9 to Masters 60+.

UIPM President Dr Klaus Schormann said: "Once again here in Weiden we have seen the positive outcomes of UIPM's development programme with a hugely successful UIPM Biathle-Triathle World Championships.

"Congratulations to the local organising committee who did an excellent job preparing a great venue for Biathle and Triathle and coping with all different weather conditions to ensure everybody had a chance to compete and create special memories.

"It was wonderful to see more than 300 athletes from 25 countries here in Weiden and not only to watch them take part, but to see high-quality performances from so many teams and athletes of all ages who have clearly remained committed to their training during the pandemic.

"After the cancellation of so many competitions in 2020 linked to COVID-19, we are delighted to have had such a wonderful 2021 season with many international opportunities to compete in Modern Pentathlon, Tetrathlon, Triathle, Biathle and Laser Run.

"We now look forward to returning to Egypt for the UIPM 2021 Youth World Championships (U19/U17) from September 13-19 and once again I urge our global community to join us in Alexandria with as many participants as possible, given the travel limitations still in place for many countries."
