## Why am I running for UIPM Member for Development

I think that with my experience I can do a lot to help develop to start Modern Pentathlon program around the world especially in those countries that have difficult resources.

Now that Obstacle Course replaced riding sport is more essential because more countries will join us.

I realize that the biggest obstacle is financial resources.

There are many different programs on different continents that can help with this like example USOC Solidarity etc.

I think that it also possible in my country, I could apply for such help, especially from sponsors who advertise their product abroad organizing develop camps in Europe who wants to start Pentathlon Program “ Pentathlon for All”.

My goal is :

- o 1. Increase budget with cooperation UIPM and IOC Olympic Solidarity Program
- 2. Develop good starting program
- 3. Partnership between a strong country and beginner country
- 4. Coaches clinic for beginners.
- 5. Provide equipment's
- 6. Organizing Sport camps for beginner young athletes
