2. Welcome by UIPM Secretary General, Mrs Shiny Fang
On behalf of UIPM President, Secretary General Mrs Shiny Fang welcomed all the delegates from the UIPM side and informed that UIPM President could not join us, because of his visa issue and she stressed that it will never happen again, especially for the next year’s events in China.
Then, she informed some issues from the UIPM side;
- We have 32 Asian members in the UIPM data who some of them only do Laser Run, Biathle & Triathle and some of them compete for 5 events, Pentathlon, but we should encourage our young members for future development as they have been gradually growing like Thailand who first started in 2014 Asian Beach Games and now they compete at the majority of WC’s in 2019, which is a really big achievement.
- For future development, UIPM do have a lot of projects and also working groups are working for what should be done for basic sports and also Pentathlon for future Olympic Games.
- Unfortunately, we do not have many active countries in Asia for Pentathlon so that we have difficulties with regard to the Asian Games like one medal at previous Asian Games, which is the same as Olympic Games.
Accordingly, this is the mission of UIPM, AMPC and NF to work together in order to have more medals at the next Asian Games 2022 in China. Most of all, we need more countries whether they do basic disciplines or Pentathlon.
- In this regard, the AMPC is the only one continental confederation that is independently sponsored by outside like AMPC President and NOC subsidy(Korean NOC), which made AMPC can invest a lot to help member federations and also promote Pentathlon in Asia.
It is a really encouraging so that we work very closely with AMPC to help our members through many different developing plans.
