2015 INTERNATIONAL UNIVERSITY OPEN

UIPM and FISU: a connection with a bright future

The capital city of the state of Morelos, Cuernavaca, has welcomed 32 athletes representing 6 countries and from 20 higher education institutions at the International University Open, the first Modern Pentathlon event affiliated to FISU.

The event, organised under the supervision of the UIPM (Union Internationale de Pentathlon Moderne), in partnership with the Mexican Modern Pentathlon Federation and CONDDE, the Mexican University Sports Federation, was a test event for a sport which joined FISU in May 2014 and will host its first World University Championship in 2018.

The men's competition started after the customary opening ceremony, attended by local city and university authorities.

CUERNAVACA, MEXICO, HOSTED THE FIRST INTERNATIONAL UNIVERSITY OPEN

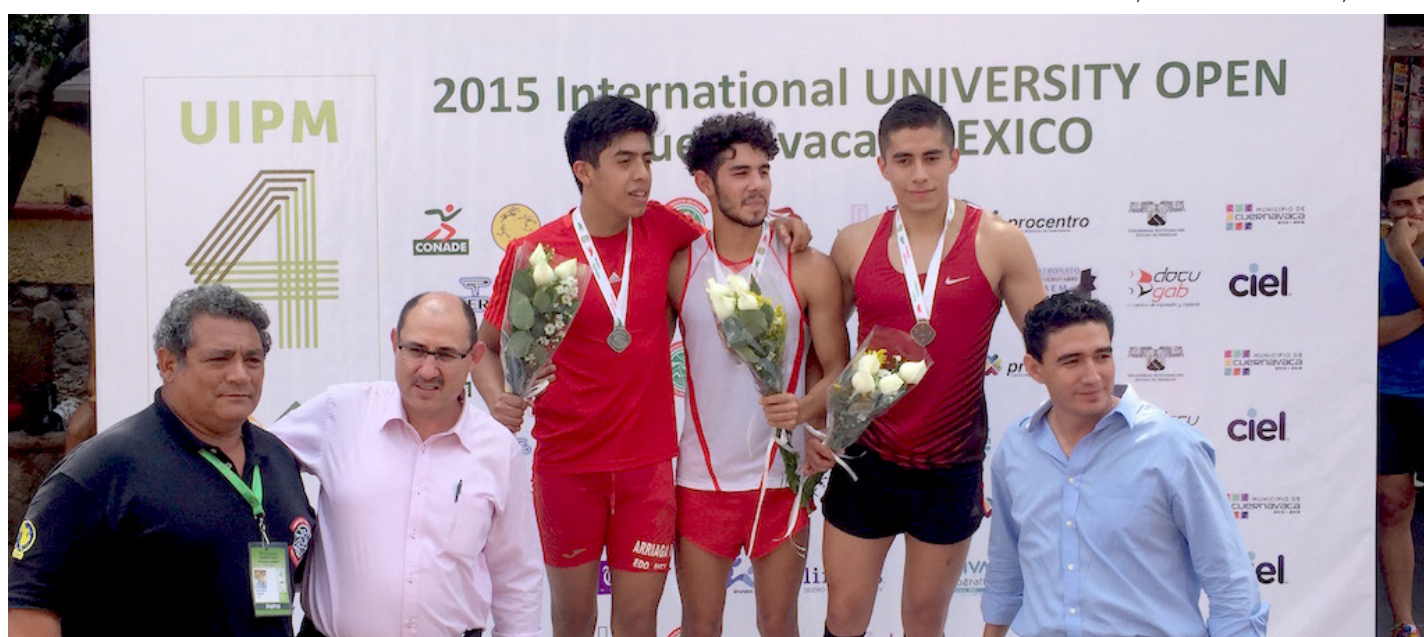

Athletes first took to the swimming heats and soon after to the fencing pistes, complemented by the bonus round.

The morning disciplines effectively set them up for the run and shoot combined event that took place in an urban setting in midtown Cuernavaca.

Garza (Escuela Nacional de Entrenadores Deportivos, MEX) beat off the competition after a thrilling final, having started the combined event in 11th place. Compatriots Diego Arriaga (Universidad Anáhuac, MEX) and Jhonnatan Ortega (Universidad del Valle del Mexico) were 2nd and 3rd respectively.

Katia Martinez stated how happy she was to win this inaugural university event and how her coaches had seen this as an important preparation event for the World Junior Championships also taking place in Mexico.

The Mixed Relay competition closed the programme of the International University Open with a spectacular performance of the home team composed of Kelly Mendonza and Andres Garza.

International German Masters Championships

The International German Masters Championships in Modern Pentathlon and Tetrathlon have been hailed as a major milestone in the history of Masters Pentathlon.

As well as some top class action on the field of play from the athletes, there were a number of aspects which made this particular event that little bit more special.

Firstly, the record turnout of 41 athletes from 13 nations – encompassing new members of the Masters Family from Italy and Monaco – is to be applauded as is the work of Beate Schenkel and his organising committee including Joerg Engelhardt, head of the Sachsen-

Anhalt Pentathlon Federation, for their attention to detail.

The Championships also heralded the much anticipated debut within an international Masters competition of laser pistols for the Combined Event.

To ease the transition, a laser shooting range was set up by Pentashot in the athletes hotel to allow them to familiarise themselves with the new technology ahead of the competition and have their own precision air pellet pistols converted, and precisely adjusted, to laser.

This clearly aided the on the field action which was flawless with all the various disciplines well received by the enthusiastic local people of Halle an der Saale.

From the Fencing at the Federal Fencing Center to the Swimming and Riding at the nearby National Stud to the ever thrilling Combined Event, where the running track was measured and flagged by Halle's very own Double Olympic Marathon Champion Waldemar Cierpinski.

Movement, innovation and Brazilian flavour: The Rio 2016 Olympic torch is revealed

On 3 of July, 399 days out from the opening of the 2016 Olympic Games, the Rio Olympic Torch and torch relay route were unveiled during a celebration in the Brazilian capital city of Brasilia.

The country's president, Mrs Dilma Rousseff, attended the ceremony along with Mr Carlos Arthur Nuzman, President of the Organising Committee for Rio 2016 and also the Brazilian Olympic Committee, besides other sports leaders, including Mr Helio Meirelles, President of the Brazilian Modern Pentathlon Federation.

The unique design of the torch incorporates "Brazilian flair". The open segments reveal "harmonious diversity, contagious energy and exuberant nature – with the ground,

sea, mountains, sky and sun represented in the colors of the Brazilian flag." The segments will open up at the moment of the kiss, when the flame is passed from one bearer to another.

Tributes to Reynaldo González López

It was with great regret and sadness that UIPM heard of the untimely passing of Reynaldo González López with the age of 66, on July 4th, in Mexico City. He will be a great loss, first and foremost to his family and secondly to the wider international sports community, where he was such a popular and respected figure.

We in the Modern Pentathlon community had the good fortune to make the acquaintance of Reynaldo through IOC business and through his leading role of Executive Secretary of Pan American Sports Organization (PASO)

He never failed to talk with knowledge and enthusiasm about our sport, which was a mark of the man given the amount of time and energy he devoted to his great sporting love, baseball.

As an IOC Member for 20 years, Reynaldo achieved extraordinary things in the world of Olympic and international sports administration and we are sure that his legacy will be powerfully felt.

He was a giant of a man and we will miss him profoundly.
