- ✚ On July 8-14, 2022, for the first time in Krakow, at the facilities of the Academy of Physical Education, the European Junior U17 & U19 Championships in modern pentathlon were held.
- ✚ The European Championships were a test-event before the European Olympic Games, which will be played in Małopolska in 2023 at the rank of the European Senior Championships, as a continental qualification for the Olympic Games in Paris 2024.
- ✚ The organization of the competition in Krakow, for the first time in history, had two goals: sports and promotional.
- ✚ Competition program:

- ✚ **Swimming:** 25m indoor swimming pool / 6 lanes

Modern Pentathlon 2022 EUROPEAN U17&U19 YOUTH CHAMPIONSHIPS

Priorities:

- ✚ **Webcast (all competitions)**
- ✚ **Information via the website and whatsapp (without papers)**
- ✚ **Shooting range without roof (target line and competitors line)**
We tested how electronic equipment (targets and laser pistols) would behave in the rain. We had practically no technical problems.
Question: Should we use such safeguards during EIO2023 - we lose the transparency of the sport fight ...
- ✚ **The shooting range, the start and the finish line were situated directly in front of the audience**
- ✚ **We extended the shooting visualization time (10 "after 5 shots))**

Effect: good visibility of the running track during the competition and global use of telephones during the competition to view the shooting results.

Website: www.U19u17krakow2022european.pl

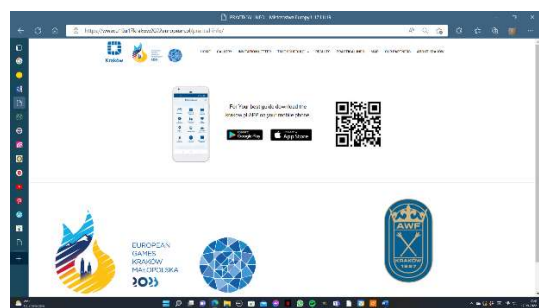

As intended, the website served as an information and was our main promotional medium. For these purposes, we have built a dedicated website linked to the official website of PZPNow www.pentathlon.org.pl through a banner with the logo of the competition. Participants (competitors, coaches, organizers, judges) had the option to log in to the website via the QR code placed on the accreditations.
