

ROB STULL

UIPM PRESIDENT

CANDIDATE

Mobil: +1 305 332 8148

Email: robstull@aol.com

Dear National Modern Pentathlon Federations,

While many of you may know me because of the 44 years I have spent in our sport, some of you do not. So who is Rob Stull OLY ? I am a candidate for the UIPM Presidency 2025-2028. In my career I have been an Athlete, three-time Olympian in two sports, Modern Pentathlon and Fencing for the USA. My years as an athlete were wonderful. And while I was a successful athlete, the most important thing I ever won were the friendships that I made.

I have met many of you and made life-long relationships that continue to this day. The sport of Modern Pentathlon gave me opportunities I would never have had without it and I have always felt that I owed a debt to the sport for these great experiences and the life I have enjoyed because of it.

Following my athletic years, and in addition to normal professional business responsibilities, I became a sports administrator and ultimately the CEO for USA Pentathlon. It was in this time that I served as a member of the US Olympic Committee's Executive Board and was a leader in the USOC Athletes Commission. I have also served on many boards and commissions and had many Olympic sport related jobs working in broadcasting, TOP partnership relations, IOC project management, digital communications and OCOG leadership for eight Olympic Games.

For the past ten years my service has included being an Ambassador (UIPM Executive Board member and Confederation President) for our sport. I have attended nearly every major competition during this time and helped create our current sports presentation model. I have been active in our hard-fought challenges and did the best I could to serve not a nation, but the sport and our global community. Some of my contributions have been important such as bringing several high-profile individuals into our family and helping to guide the transition from Equestrian to Obstacle. I have tried to be a good Ambassador of our sport and the values, history and tradition it represents. I am seeking the Presidency now because I think the next four years will be critical as we build on our existing platform to begin the next chapter of our great sport. ***I am an American, well known in US Olympic circles with the Games coming to Los Angeles after a magnificent Paris edition.*** I have been developing relationships with the Obstacle community since the very beginning and I work very well with our current staff and the leadership of the IOC, various NOC's, IF's and commercial partners.

I am delighted and humbled by the quality of all my fellow candidates and I well know nothing of note can be accomplished without the involvement and alignment of the National Federations.

That said, I believe that for this transition and with the Games coming to the USA, I am the Right Man with the Right Vision at the Right Moment. As I humbly ask for your vote, please remember that I am completely open to discussing your vision and priorities for the Union.

I know the key to leadership is to surround yourself with people smarter than you. I am glad that in our sports family, there are many of those.

Sincerely,

Rob Stull
