

67th UIPM Congress

The 67th UIPM Congress approved a number of motions designed to modernize the way the UIPM governs and manages Modern Pentathlon and its sub-sports, including:

- A comprehensive review and update of the entire structure of UIPM, including changes to simplify and reduce the number of rules on internal organizations
- Changes to UIPM Biathlon/Triathlon competition rules
- Adoption of a code of ethics in line with the latest IOC requirements that provides for a clear and efficient procedure in cases of litigation
- A simplification of election rules for all elective seats within UIPM

Dr Klaus Schormann, President of UIPM, said: "This Congress has been a big step forward for development with new member federations joining our global community and new innovations such as Laser-Run making our sport even more accessible to the world.

"The National Federations are very united in focusing on sport, education and the integration of society through sport. UIPM is committed to the IOC Agenda 2020 and to supporting the protection of clean athletes."

UIPM rubber-stamped the membership of six new federations - Bermuda, Afghanistan, Indonesia, Benin, Madagascar and Colombia - and became the first International Federation to express support for the Declaration of Support for the Olympic Charter which was signed by Olympians representing all five continents at the inaugural World Olympians Forum in Moscow (RUS).
