

UIPM Executive Board Meeting Summary

Online, 12 February 2024

The UIPM Executive Board (EB) was given a comprehensive update on the work of the Fencing Working Group by its chair, Ivar Sisniega. This working group was set up to examine all options for the evolution of Fencing in Modern Pentathlon during the Los Angeles 2028 (LA28) Olympic cycle.

With the annual Joint Committees Meeting in Frankfurt (GER) taking place the same month, the EB agreed with a proposal from President Dr Klaus Schormann that Mr Sisniega receive a briefing from each Committee Chair and then chair one more meeting of the group before delivering a final proposal for the EB to consider.

The EB also discussed a wide range of issues pertaining to Paris 2024 and LA28, UIPM 2024 Congress and the Independent Panel set up to review applications for Independent Neutral Athlete (AIN) status.
